Phone: 7548893112

Email: mjemi4025@gmail.com | [LinkedIn](#) | [Github](#)

Objective:

Eager to contribute to innovative projects while continuously enhancing technical and problem-solving skills in emerging technologies. Committed to developing efficient and scalable solutions while collaborating effectively within a team to achieve organizational goals.

Education

VSB College of engineering Technical Campus	B.E(CSE)	CGPA: 8.2	2023-2027
Sri vijayya vidhyalaya matric higher sec school	HSC	77%	2022-2023
Sri vijayya vidhyalaya matric higher sec school	SSLC	Promoted	2020-2021

Skills:

- **Programming Languages:** Java, Python
- **Databases:** MySQL
- **Tools:** VS Code, GitHub
- **Operating Systems:** Windows, Linux

Project:

Project : Employee Payroll System

Technologies used: Java, OOP Concepts, Scanner Class

Description: A console-based Java application developed to manage employee payroll details. The system calculates net salary using basic salary, bonus, and deductions, and displays employee payroll information efficiently using object-oriented programming concepts and user input handling.

Internship:

Deep learning and Deployment on web – Devtown/ Feb 2024

Learned the fundamentals of deep learning using Python and neural network concepts.

Worked with Python libraries and understood the end-to-end ML deployment workflow.

2026

Implemented machine learning algorithms using Python for data analysis and prediction.

Improved understanding of supervised learning, model optimization, and real-world ML application.

Certification:

- Basics in python - Infosys springboard
- NPTEL(Elite/63%)-Computer Networks and Internet Protocol
- Java programming for beginners.
- Microsoft power BI- Data analyst

Patent:

Automatic Blockchain Development: An AI-Driven Framework For Secure, High Velocity Smart Contract Development Patent Application No: 202541095562 A | Publication Date: 31/10/2025
Published in The Patent Office Journal, India.

Languages:

- English
 - Tamil
