OBJECTIVE

Final-year Computer Science Engineering student with experience in ML-based systems. Seeking a Software Developer role to apply skills in Python, Java, Data Structures & Algorithms, and databases to real-world engineering problems.

EDUCATION

VSB College of Engineering Technical Campus —

B.E Computer Science Engineering, CGPA: 8.2 2023-2027

Sri Vijayya Vidhyalaya Matric Higher Sec School — HSC, 77% 2022–2023

Sri Vijayya Vidhyalaya Matric Higher Sec School — SSLC, Promoted 2020–2021

TECHNICAL SKILLS

Programming Languages: Java, Python

Core Competencies: Data Structures & Algorithms, OOP

Web Devolopment: HTML, CSS

Database: SQL

Tools & Platforms: Git, GitHub, VS Code

PROJECTS

Employee Payroll System | *Java, OOP, Scanner Class*

- Developed a console-based Java application applying OOP principles to manage end-to-end employee payroll.
- Implemented salary computation logic covering basic pay, bonuses, and deductions with real-time user input handling.

Siteforge | *Python, Flask*

- Architected a form-driven website generator with REST-style routes that auto-fills templates from user input and self-hosts a live, shareable link for each generated site.
- Designed the MVP around route-based instant preview links, submitted as a hackathon project.

INTERNSHIP EXPERIENCE

Deep Learning & Web Deployment | *Devtown* *Jan 2024 to Feb 2024*

- Applied deep learning fundamentals and neural network concepts using Python.
- Implemented an end-to-end ML model deployment workflow on the web using Python ML libraries.

Python Machine Learning | *Vei Technologies* *Dec 2025 to Jan 2026*

- Implemented supervised learning algorithms in Python for data analysis and prediction tasks.
- Optimized model performance and applied the techniques to real-world ML use cases.

CERTIFICATIONS

- Basics in Python — **Infosys Springboard**
- Computer Networks and Internet Protocol — **NPTEL**
- Java Programming for Beginners —**Coursera**

DECLARATION

I hereby declare that the information provided above is true and accurate to the best of my knowledge.
